

NEWS LETTER

October, 1982

September 4 - GILMAN, WI

RC DAVE JOHNSON said: "RAIN"

September 8 - PRESCOTT, WI

DEBBIE SAARF picked one of our favorite parks for this Wednesday night ride. Too bad it has started getting dark so soon.

September 11 - MANTORVILLE

Marigold days were in full force, but there was still room in the town for us. And also lots of room at the Hubble House for all the gentlemen and ladies dressed in their finery. RC MARV TRANBY did a good job of finding some nice roads for this trip.

September 15 - PROUD MAY'S BAR

Oh boy, oh boy, Walt's taking me for another ride. And this time we are right at the front. Get to sit at the corner and watch all the others go by. One of my favorite parts of these trips. Second only to having people play stick with me....Oh look, he is signalling. Pull over Walt, lets watch the parade....Wait a minute, he went straight! Quick, pull back in behind him....Boy this is fun, I love riding on the bike. Okay, his signal is back on, we'll mark this corner....Well, shit! He didn't turn there either. What is the matter with this clown?....One more time, he has got to be turning at this corner. What the fuck? I may be STUPID, but this leader is a real first class dummy. I hope no one gives him a Road Captain patch!....Finally we are here. Hurry up and let me down so I can run around and bark and play stick. Wait! Where are you going? A bar? What do you mean - a bar! Hey, this is not the club I ride with! We always go someplace nice where I can socialize too.
-STUPID

September 18 - RUSH RIVER

Well, this is a nice new park to go to. Thanks to GARY SCHULZ and GARY KOBBS for finding it. And a pretty nice ride out, KOBBS. We will have to schedule this for sooner in the year in '83.

September 22 - ROSEMOUNT

Ride captains should remember that Road Captain patches go only to those that successfully follow all the steps. Briefly: Pre-ride, make maps, set corner markers, set pace. Making the destination a suprise is not cute or clever, but very hard on those who get behind or lose a corner marker. It also indicates a disregard for those who might not know the way back. -ED

September 25 -MONDOVI,WI

I may be prejudice, but I like this spot. Even if I can't follow my own map. This is a good time of year for this place too, as we can hide inside some, and no mosquitos. It would even make a good place for a surprise birthday party, right DENNY? As long as the birthday boy does not get too impatient.
-SQUEAK

September 29 - RANDOLPH

Great weather, great crowd, and great place for a ride or a party. BOB Z - can we talk your folks into housing the opening ride party next year? Thanks for the last official ride of the '82 season.

TO THE EDITOR: HOW FAST?

How fast should a Road Captian go when leading the club ride? 67 mph? 65, 60, 55? How fast should a corner person have to ride to catch up after he's sat 10 -12 minutes waiting for people caught at lights, and for the last corner person, who also sat at a corner for some time? Should the corner person expect to have to go 70 mph or more? After all, the next corner guard is waiting. Is this one reason riders seem reluctant to line up close to the head of the pack? Who will pay the speeding ticket in any case. Does the Road Captian discourage people from riding with the club by riding faster than the posted limit? or is this what people want? I don't know the answer, but I do believe that the question should be formally addressed.

OFF SEASON FESTIVITIES

HALLOWEEN PARTY - Shirley Bennet's - 112 W 35th St 824-7822 (costume only) Saturday, October 30. Bar hopping starts at 7:00 at the LEAF. Shirley will have one keg of beer. The rest is BYOB. Prizes for costumes: 1)Grossest 2)most original 3)most bizarre 4)prettiest

AS THE PHANTOM FLIES:

Well, as another riding season draws to an end, the Phantom has decided to express thanks to the people that helped the WBMC make it through another year. Do you realise that this was the 13th riding season for the club? That includes one year under the name of The University Motorcycle Club and the last dozen as the good old WBMC.

So much for club trivia, and back to my original thoughts on thanking the folks who have helped make this year a success. Of course it goes without saying, THANK YOU to our officers RON WIDELL, MARILYN PANTERA, the two halves of the PR department GARY SCHULZ & DAVE JOHNSON and the co-editors, SQUEAK & WALT BROWN. Yeah! Yeah!

Equally as important are the people on the sidelines who pitch in when there are extra things to be done. All too often these folks get missed and I feel that they should be given a heartfelt round of applause, for they are the ones that really keep this group functioning. So here goes: Once again we have GARY SCHULZ who has taken on the burden of doing all our printing. Then there is STEVE and PAULA JOHNSON who hosted the beginning of the year party out at their place in Lakeville. We also can't forget the generosity of JOYCE and DON ROELOF for opening their house for the year end party. A great big 'ATTA-BOY' to BRUCE SIKKEMA for all the time he spent looking at odometers to determine both high and average mileage riders. Many thanks to all that put forth so much effort to make the year end party a success: MARY LUOMA, DAVE ZEMAN, MARILYN PANTERA, GARY SCHULZ, RICHIE NEILSON, RON WIDELL, SHIRLEY BENNET, NAOMI WIDELL and PATTY GAGNER for keeping everything running so smooth.

Also thanks go out to all who kept track of the beer tickets and who pitched in and brought all the tasty pot luck dishes. I can't remember you all (hell, I can't even remember who I am half the time), but you know. I do hope that everyone gets their bowls, pots and dishes back in time to fill them up with goodies for the next pot lucker. MARV, thanks for the keg also.

A great big long distance thanks to GAY and GABBY for rounding up the tent and carting it over from Wisconsin on such short notice.

At this time I think it appropriate to throw in a round of applause for all our sponsors. Without the help of these people this would not be possible:

KELLY'S WRECKER SERVICE
LARSONS CYCLE
HONDA TOWN
CYCLE SURPLUS
RELIABLE CYCLE
KOKESH MOTORCYCLE
LEATHER SPECIALISTS

GOLDENLEAF BAR
RAPID SPORTS CENTER
DICK'S PORTING
TRACKSTAR ENTERPRISES
OSSEO HONDA
DR. MUDSPRINGER
BY GEORGE INN

Speaking of sponsors, a special thanks to the guys at CYCLE SURPLUS for their donation of the door prizes. They were a welcome surprise!

I don't know about you-all, but I thought that we had a most interesting riding season this year and I hope to see everyone back next spring. In the meantime, remember to keep the shiny side up, be it a 2 or 4 wheeler. Remember not to hibernate all winter just because the old bike is out behind the house under all the snow. There is a list of parties elsewhere in this newsletter. Anyone is welcome to grab the phone and the telephone list and put out the word any time. I know that will put a smile on all faces, as next to skooters, a true West Banker likes to party.

See you all next spring, Bye!
